Lexicomp®, Informing Drug Decisions for Better Care

Founded by pharmacists more than 35 years ago

Used in 5,800+ healthcare organizations around the world

Patient-centered referential drug content for the entire care team

Unparalleled commitment to medication safety with best-practice evidence and recommendations

Enables care teams to take a patient-specific approach

Formulary management accessible in the workflow, customized to fit your needs

Advanced technology powers information clinicians need at the point of care

With Lexicomp at the point of care, pharmacists, clinicians, and nurses say* they can:

Save time **94%**

Find answers to Drug Questions Anytime. Anywhere.

Unique in the industry—Lexicomp is completely available on-the-go with our unabridged mobile app.

"My go-to resource for dosing recommendations, especially for critically ill patients, is Lexicomp. It's the most up-to-date drug reference you can find right now."

– Bruce Mueller, PharmD, FCCP, FASN, FNKF, Interim Dean at University of Michigan College of Pharmacy, U.S.A.

Provide better care for every patient **97%**

The Depth and Answers you need for every patient

Comprehensive pediatric and neonatal information and tools in one place

Enhanced renal dosing guidance from foremost experts to properly dose adjustments for kidney function

The complete *Trissel's™ 2 Clinical Pharmaceutics Database* with notifications of new IV compatibility from our editors whenever new data is published.

Comprehensive clinical insights from the authors of UpToDate® to help avoid prescribing cascades

"Dosing for children can be very difficult because it can change based on weight and age. There is no way to remember all the details, so the formulary [in Lexicomp] is extremely important at our hospital."

– Sarah Erush, PharmD, BCPS, Clinical Manager, Department of Pharmacy, Children's Hospital of Philadelphia, U.S.A.

Access the most updated information **95%**

Martindale: A Global Reference

Includes updated coverage of proprietary preparations in 43 countries including Australia, China, and the UK.

Always reliable. Always current.

Evidence-based content developed by multi-disciplinary authors, editors, and independent reviewers who are leaders in their fields.

Recognized by the Centers for Medicare & Medicaid Services (CMS) for off-label oncology use of drugs.

"Our nurses and pharmacy staff are called upon frequently to answer drug information questions. It's imperative that we are able to access information quickly and that we can trust the information we are providing. Lexicomp gives us both."

– Jason Haire, Director, Medicine Chest Long-term Care Pharmacy in Texas, U.S.A.

"Having a trusted source for drug decisions is critical to delivering safe, high quality healthcare. Using Lexicomp, I'm confident that the information we provide to other healthcare professionals is contributing to the best possible outcomes for our patients."

– Colm Devine, Chief Pharmacist, Pharmacy Dept., Letterkenny University Hospital, County Donegal, Ireland
